#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions.

This temporary permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 58414 is issued subject to the terms and conditions imposed in said Permit 58414 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This temporary permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The issuance of this temporary permit will allow the permittee to dewater the pit area. Maximum use of the water for mining, milling and related purposes from all dewatering wells not used for mining, milling and related purposes will be returned to the groundwater source in the manner authorized by the Division of Environmental Protection.

This temporary permit is issued subject to the stipulation between Echo Bay Minerals Company and Lander County, dated May 11, 1993, and with the understanding that no additional consumptive use of water is granted under this temporary permit.

The total combined consumptive use of water under Permits 49249, Certificate 15250; 51711, Certificate 12515; 51712, Certificate 12516; 52776, 52777, 52778, 53220, 55178, 55179, 55181, 55183, 55186, 55903, 55904, 55905, 56497, 56498, 56894, 57370, 57967, 58410, 58411, 58412, 58413, 58414, 58720, 58721, 61232, 61233, 61234, 61235, 61236, and Temporary Permits 67404-T and 67405-T will not exceed 3,000 acre-feet annually.

Monthly reports will be submitted to the State Engineer as to (a) how much water is pumped from each well; (b) the amount used for mining, milling and related purposes; (c) the amount of water placed in the percolation system; and (d) the estimated amount of water recharged to the groundwater system.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on **July 12, 2002** at which time all rights herein granted shall revert to the right being changed by this temporary permit. (CONTINUED ON PAGE 3)

TEMPORARY

# Page 3 of 3 (PERMIT TERMS CONTINUED)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed  $\underline{1.0}$  cubic feet per second,

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Water must be placed to beneficial use on or before:

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 13th day of July A.D. 2001

State Engineer

DA JUL 1 2 2002
